FEATURED PROJECTS

Why commercial teams choose 4K Aluminum.

01 Engineering & code compliance Built to meet local wind, snow and building code requirements, and ASTM certified as Class A. Site-specific engineering recommended for every project.	02 Finishes Five standard powder coat colors and two wood finishes. Custom colors are sometimes possible.	03 Extruded, not roll-formed Posts and beams extruded from 6061-T6 aircraft-grade aluminum, with no steel inserts. 2" x 10" beams span up to 33 ft between two 8" posts without support.
04 Installed by certified pros 4K Aluminum sells only to authorized, properly licensed contractors, and has served more than 700 of them.	05 Four locations, ready stock Las Vegas, Brea, Rancho Cordova and Brookshire. Will-call pickup at every location and nationwide delivery available.	06 Proven on commercial projects Trusted on commercial projects for Amazon, Starbucks, Marriott, Hilton, Mandalay Bay and Westin.

How a commercial project works.

01 Share your project Send the basics, plans and design work. The 4K Aluminum team follows up.	02 Matched with a certified contractor 4K Aluminum connects you with an authorized 4K Certified Contractor in your area.	03 Engineering & permits Site-specific engineering from our partners. Your contractor obtains the permits.	04 Material planning & logistics We help plan material supply and logistics, with will-call pickup or nationwide delivery.	05 Installation Installed by your 4K Certified Contractor.	06 Warranty registration Register the warranty within 90 days of installation.
