

LIGHTING

4K LED System

Color-changing LED strips in 4K Aluminum beam light tracks, run by remote on low voltage.

RGBW

White, red, green, blue

24-volt

Low voltage

40 ft

Remote range

1 zone

Per controller

Key features

Four colors, one strip

White, red, green and blue, with four hue changes from the remote.

Independent zones

Each controller runs its own strip, so every area gets its own light.

Beam light tracks

Aluminum tracks with a diffuser lens, in the five standard colors.

Sized to the run

100W (40 ft), 200W (70 ft), 300W (135 ft) or 500W (170 ft+).

Plug-and-play

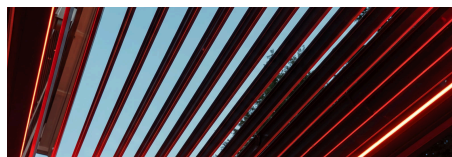

Strips, extension cables and Y cords simply plug together.

Weather resistant

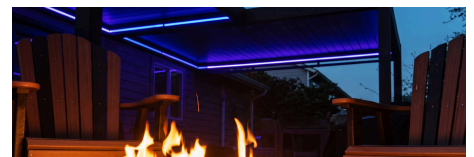

Resistant to excessive moisture; not waterproof. ETL, CE, RoHS.

Green and red along the beams

Red along a louvered roof

Blue along a covered patio

Light up your structure.
