

4K PERGOLA SYSTEMS

Extruded aluminum, built to span.

Extruded 6061-T6 posts and beams, hidden fasteners and an AAMA 2604 powder coat.
Attached or freestanding, with lattice, Soleil™ or solid roofs.

4K Pergola Systems are extruded aluminum, not roll-formed sheet, with no steel inserts. There are no standard sizes: posts, beams and lattice mix and match, and every structure is designed for its project.

Combo lattice and VEER™ panels with a rain curtain · Residential

Up to 33 ft

Beam span between posts

20 ft

Lattice span without rafters

Open or solid, your choice

Start with an open lattice top, or cover the structure with a solid roof or decorative laser-cut panels.

2" SQUARE, 3" SQUARE, 1" x 4" OR 1" x 6" LATTICE

Open lattice

Lattice tubes span up to 20 ft without rafters, which means less time for installation. They attach with internally mounted, color-matched screws.

SOLEIL™, VEER™ OR TWIN WALL

Soleil™ panels or a solid roof

Laser-cut Soleil™ panels filter the light into their own pattern of shade, or add a solid VEER™ or Twin Wall roof from the 4K Roof System.

Key features

Spans up to 33 ft

2" x 10" beams span up to 33 ft between two 8" posts without support, using extruded beam connectors.

Lattice spans 20 ft

Lattice tubes span up to 20 ft without rafters, which means less time for installation.

Extruded, not roll-formed

6061-T6 posts and beams and 6063-T6 lattice, extruded through a die. No steel inserts.

Hidden fasteners

Internally attached, color-matched screws on the lattice and seamless beam connectors. No exposed brackets, no plastic end caps.

AAMA 2604 powder coat

Powder coat to the AAMA 2604 architectural standard.

Engineered for your site

Site-specific engineering from our licensed partners, McPherson Engineering and Ammtec Consultants, for local wind and snow loads and building codes.

Build it your way

Posts	4" × 4", 6" × 6", 8" × 8"
Post wall	3/16" on 6" posts; 1/4" on 8" posts
Beams	2" × 4", 2" × 6", 2" × 8", 2" × 10"; stacked beams for a modern look
Beam wall	1/8" on all beams
Lattice	2" square, 3" square, 1" × 4", 1" × 6"; various lengths
Roof options	Lattice, ATLAS louvers, Soleil™ panels, or a solid VEER™ or Twin Wall roof
Extras	2" square, 3" square, 1" × 4" and 1" × 6" lattice walls; Soleil™ panels; 4K Aluminum LED lighting in beam light tracks
Layout	Attached or freestanding; any size, any post count
Materials	Extruded 6061-T6 posts and beams; extruded 6063-T6 lattice; no steel inserts
Hardware	304 stainless steel; powder-coated galvanized steel brackets
Finish	AAMA 2604 powder coat
Fire	ASTM certified as Class A
Warranty	20 years on aluminum and standard colors; 10 years on wood sublimation; exceptions apply

No series and no standard sizes. Spans, post sizes and connections are set by each project's engineering. Specifications are subject to change.

Colors and finishes

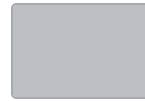

Black

Espresso

Adobe Tan

Apollo Grey

Quartz White

Warm Oak

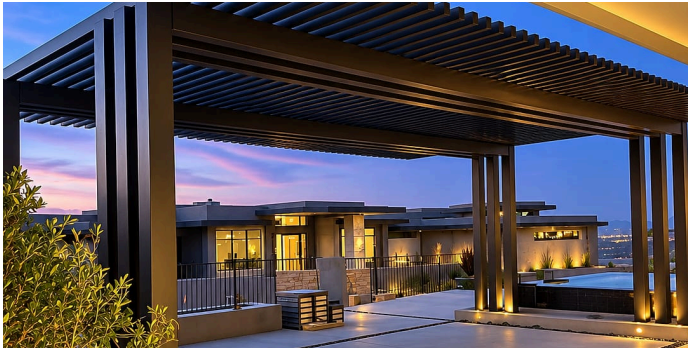

Sandalwood

Five standard powder coat colors. Warm Oak and Sandalwood wood finishes on 1" × 4" and 1" × 6" lattice and on VEER™ and Twin Wall roof panels. Swatches are for reference; printed and on-screen colors vary.
