

4K ROOF SYSTEM

VEER™ Roof Panels

4K Aluminum VEER™ single wall roof panels are crafted from high-quality 6063-T6 aluminum and feature an innovative interlocking system for easy installation. Available in two styles: VEER-Batten and VEER-Smooth.

Freestanding cover with VEER-Smooth panels in Black

6063-T6

Extruded aluminum

Up to 10 ft

Span without center support

Class A

ASTM fire certified

0.65 lb/ft

Lightweight panel

Two styles

2-INCH BATTEN

VEER-Batten

Ribs at 2-inch centers along the underside.

SMOOTH FINISH

VEER-Smooth

A clean, continuous underside with no grooves. Both styles share the same specifications.

Why VEER

Exceptionally durable

VEER panels are exceptionally durable and help protect against outdoor elements.

Built to last

Resistant to rust, corrosion and extreme weather, VEER keeps its strength and appearance with simple care.

Interlocking assembly

An interlocking system allows quick, precise assembly without specialized tools.

Specifications

Material	Extruded 6063-T6 aluminum
Nominal profile	1" x 6"; 6" coverage width
Standard lengths	12, 16 and 20 ft
Weight	0.65 lb per linear ft
Span without center support	Up to 10 ft
Fire	ASTM certified as Class A
Warranty	20 years on aluminum and standard colors; 10 years on wood sublimation

Specifications are subject to change. Beams, posts, connections and design loads are set by the project's engineer of record.

Colors and finishes

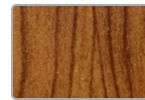

Espresso

Black

Quartz White

Warm Oak

Sandalwood

Espresso, Black and Quartz White are AAMA 2604 powder coat colors; Warm Oak and Sandalwood are wood sublimation finishes. Swatches are for reference; printed and on-screen colors vary.
